LAGREIN

Gravità 2021

In science, gravity is expressed through attraction. It decreases with distance, but has unlimited dimension. Similar to Lagrein: its body, acidity and above all its incomparably intense colour confer infinite depth.

VINIFICATION

The Lagrein grapes are gently separated from the stems and then fermented spontaneously on the skins for 3 weeks. The wine then matures for 18 months in 500l wooden barrels (Tonneaux).
